Early Childhood EDUCATION MANAGEMENT

Comprehensive platform for managing early childhood programs from provider to student

> Built on Salesforce Public Sector Solutions, this platform unifies provider management, contract administration, budget oversight, enrollment processing, attendance tracking, and invoice reconciliation into a single system. Providers access self-service portals to manage operations while education agencies maintain full oversight with automated workflows, real-time compliance monitoring, and seamless integration with student information systems, eligibility verification, and financial management platforms.

KEY CAPABILITIES

- Provider contract and budget management
- Student enrollment and attendance tracking
- Automated invoice processing
- Developmental screening submission
- Staff provisioning and verification
- Incident reporting workflows
- Monitoring and coaching logs
- Seat capacity planning tools

WHY THIS MATTERS

- Eliminate manual data entry across systems
- Accelerate payment processing for providers
- Ensure compliance with education regulations
- Improve transparency for all stakeholders
- Enable data-driven program decisions
- Reduce administrative burden on staff
- Scale from local to statewide programs
- Support complex provider ecosystems

Proven RESULTS

Integrated Modules

Trusted BY

Large Urban School Districts

Managing hundreds of provider contracts with thousands of students across comprehensive Pre-K programs

State Education Agencies

Coordinating statewide early childhood initiatives with multi-agency integration and compliance oversight

Key Features & MODULES

Provider Management

Manage provider applications, evaluate qualifications with automated scoring, track compliance status, maintain provider profiles, & coordinate procurement workflows for early childhood education organizations.

Contract Management

Create and manage provider contracts through full lifecycle. Track contract status, process amendments and renewals, maintain terms and conditions, monitor compliance, and provide portal access for providers.

Budget Management

Review and approve provider budgets using standard cost categories. Manage budget line items, track modifications, reconcile with invoices and spending, monitor utilization, & support multi-year planning.

Seat Capacity Planning

Manage available seat capacity across programs and providers. Allocate seats, track utilization, plan capacity for upcoming years, and manage different seat types including full-day, half-day, and extended-day programs.

Student Enrollment

Oversee student enrollment processing with automated workflows. Coordinate with enrollment systems, manage waitlists, track enrollment status, approve changes, & against available capacity.

Student Attendance

Record and monitor daily attendance across providers. Review attendance reports, identify trends & issues, coordinate with student information systems, support compliance reporting, & manage excused absences.

Developmental Screening

Track developmental screening submissions from providers. Monitor completion rates, review results, ensure regulatory compliance with screening requirements, and coordinate with state reporting systems.

Invoice Management

Review and approve provider invoices with automated validation. Reconcile amounts against budget & attendance, manage workflow approvals, track payment status, handle disputes, & calculate maximum allowable amounts.

Incident Reporting

Review and track incidents reported by providers. Manage incident workflows and escalation procedures, ensure timely response and resolution, maintain comprehensive incident history, and support regulatory reporting.

Monitoring & Coaching

Schedule and conduct site monitoring visits with structured observation tools. Record findings, manage corrective action plans, track coaching activities, document technical assistance, and maintain improvement histories.

About PRUTECH

PruTech Solutions has been supporting organizations with technology solutions for over 27 years. We have collaborated with public and private sector entities to help them achieve their goals through innovative technology. Our experience with government agencies and service delivery organizations positions us to deliver dependable solutions that meet stringent operational requirements while improving efficiency and service quality.
