Evidence Management & **TRACKING SOLUTION**

PruTech.com

Evidence Management & **TRACKING SOLUTION**

Complete evidence lifecycle management for labs, victim services and law enforcement

> Built on Salesforce Service Cloud, this solution provides end-to-end tracking and management of sensitive evidence throughout its entire lifecycle. The platform delivers complete chain of custody tracking from collection at facilities through long-term retention, with role-based access for facility staff, warehouse personnel, administrators, and victims. An anonymous victim portal with PIN-based access empowers individuals to track evidence status without requiring login credentials, while barcode/QR code integration and automated notifications ensure operational efficiency and victim-centered care.

KEY CAPABILITIES

- Complete chain of custody with user identity and timestamps
- Anonymous victim portal with PIN-based tracking
- Barcode/QR code scanning with wireless integration
- Role-based access for six distinct user personas
- Automated email and SMS victim notifications
- Precise warehouse location tracking (shelf, bin, cooler)

WHY THIS MATTERS

- Meet legislative mandates for evidence retention
- Eliminate manual paper-based tracking processes
- Empower victims with transparent evidence tracking
- Ensure full regulatory compliance with audit trails
- Support trauma-informed care practices
- Scale across multi-facility operations

State Agencies

Statewide evidence tracking systems managing thousands of items with full chain of custody and trauma-informed victim access

Medical & Forensic Facilities

Healthcare providers using streamlined workflows for evidence collection, documentation, and secure handoff

Key Features & MODULES

Case & Evidence Management

Create cases, document evidence collection details, generate unique case and evidence numbers, link multiple items (SOEC kits, DFSA kits, clothing, bedding) to a single case and victim, and print QR codes for evidence tracking.

Chain of Custody Tracking

Complete logging of every evidence movement with user identity, date/time stamps, and location data. Track collection by examiner, hospital storage, transport preparation, courier/delivery, and warehouse receipt with full audit trail.

Barcode/QR Code Integration

Wireless barcode scanner support, bulk barcode printing capabilities for medical facilities, mobile QR code scanning via device cameras, and quick data entry & verification to reduce manual errors.

Anonymous Victim Portal

PIN-based tracking without login requirements, view current kit status and location, see chain of custody information, quick exit button for safety, and trauma-informed interface design supporting victim empowerment.

Automated Notifications

Email and SMS notifications to victims with opt-in/opt-out capability, alerts when 20-year storage period approaches (90 and 30 days before expiration), kit status updates throughout lifecycle, and support for foreign phone numbers.

Facility Storage Management

Define and manage facility storage locations, track evidence while in facility custody, document storage location details, prepare evidence for transport, and log release to central warehouse with tracking information.

Warehouse Operations

Log arrival and scan QR codes to confirm receipt, assign evidence to specific warehouse locations (room, row, rack, shelf, bin, cooler), move items within warehouse with full chain of custody logging, and prepare evidence for disposition.

Role-Based Access Control

Multiple user roles with tailored permissions: Facility Admin, Facility Staff, Agency Admin, Agency Staff, View-Only, and Victim. Each role has appropriate access to features & data matching their responsibilities.

System Administration

Add/edit facilities and collection sites, manage examiner and staff records, configure evidence types and storage locations, manage user accounts and permissions, reset victim PINs, & adjust configuration without vendor intervention.

Dashboards & Reporting

Pre-configured reports (Kit Status, Submissions by Facility, Inventory, Chain of Custody, Change Log, Error Log, Kit Aging, System Admin), ad-hoc reporting functionality, Excel and PDF export, and role-appropriate access to reporting.

About PRUTECH

PruTech Solutions has been supporting organizations with technology solutions for over 27 years. We have collaborated with public and private sector entities to help them achieve their goals through innovative technology. Our experience with government agencies and service delivery organizations positions us to deliver dependable solutions that meet stringent operational requirements while improving efficiency and service quality.
