Affordable Housing **PLACEMENT SOLUTION**

Affordable Housing PLACEMENT SOLUTION

Transform how your agency manages affordable housing from application to placement

> Built on Salesforce Public Sector Solutions, our platform connects developers, government agencies, and residents in one seamless ecosystem. Developers submit properties and manage applicant pools through a dedicated portal. Agencies maintain full compliance oversight with automated approval workflows and real-time visibility into all placement activities. Residents access a public portal to browse listings, submit applications, and track status online.

KEY CAPABILITIES

- Portal for property submissions & applications
- Public-facing portal with searchable housing listings
- Automated waitlist and lottery management system
- Government compliance oversight dashboard
- Multi-language support with accessibility compliance
- Application screening and document management

WHY THIS MATTERS

- Increase transparency and reduce processing time
- Improve access for underserved communities
- Provide equitable, accessible housing pathways
- Ensure regulatory compliance across all activities
- Reduce manual workload for agency staff
- Scale from local to statewide programs

Key Features & MODULES

Property & Development Management

Create and manage property developments with detailed unit information. Track development status, maintain unit inventory, and configure property-specific requirements and eligibility criteria.

Listing Approval Workflow

Collaborate with asset managers through structured review and approval workflows. Submit listings for compliance review, receive feedback, make revisions, & gain approval before publication to the public portal.

Automated Lottery Management

Run transparent, randomized lotteries with one click. System generates lottery logs with ranked applicants, maintains audit trails, and ensures compliance with fair housing regulations. Supports preference categories and priority processing.

Waitlist System

Manage ongoing waitlists with automated ranking & processing. Open and close waitlists on demand, track applicant positions, and process applications in order based on eligibility and preferences.

Application Processing & Screening

Streamline application review with configurable screening workflows. Request & track required documents, verify eligibility, conduct interviews, and move applications through approval stages with full audit history.

Public-Facing Portal

Accessible portal for applicants to browse available housing, search by preferences, view detailed listing information, and submit applications. Available in 12+ languages with full WCAG 2.2 accessibility compliance.

Applicant Profile Management

Create and maintain one housing profile to apply for multiple opportunities. Track application status in real-time, receive notifications for document requests and updates, and manage household information efficiently.

Compliance & Oversight

Full oversight dashboard for agency staff to review regulatory compliance. Verify income maximums, rent levels against AMI limits, and maintain audit trails for all listings, applications, and placement activities.

Automated Communications

Send automated notifications and communications to applicants throughout the application lifecycle. Request documents, provide status updates, send lottery results, and deliver offer notifications through the portal.

Dashboards & Reporting

Comprehensive dashboards and reports for all user levels. Track key metrics, monitor application volumes, analyze placement rates, and generate compliance reports. Customizable views for different stakeholder needs.
