Case Management & **CANVASSING SOLUTION**

PruTech.com

Case Management & **CANVASSING SOLUTION**

Transform public outreach and service delivery with unified case management and field operations

> Built on Salesforce, our platform unifies case management, mobile canvassing, and data analytics into one comprehensive system. Field teams conduct door-to-door outreach using native mobile apps with offline mapping capabilities. Case managers track complete client lifecycles from initial contact through service delivery and outcomes. Agency leaders gain real-time visibility into operations with advanced dashboards and integrated analytics platforms.

KEY CAPABILITIES

- Native iOS app with offline mapping
- Complete case lifecycle tracking and management
- ESRI integration for mapping and geocoding
- Appointment scheduling with external providers
- Configurable surveys, scripts, and data entry forms
- Role-based security with hierarchical permissions

WHY THIS MATTERS

- Eliminate manual coordination across multiple systems
- Enable efficient field operations with offline capabilities
- Track complete service delivery from outreach to outcomes
- Ensure data security and HIPAA compliance
- Integrate with existing data platforms & systems
- Scale to support hundreds of concurrent users

Social Service Agencies

Large-scale public benefit programs managing millions of beneficiaries with comprehensive case management and field outreach capabilities

Public Health Departments

Community health initiatives conducting door-to-door outreach with mobile data collection and real-time case tracking

Key Features & MODULES

Mobile Canvassing Module

Native iOS application enables field staff to conduct door-to-door outreach with of/line mapping capabilities. Select records using custom polygons, assign to lists, view on mobile maps, and collect data in real-time even without connectivity.

Client Information Management

Store comprehensive client information with ability to identify and consolidate duplicate records. Capture demographics, household characteristics, program utilization, and service needs. View complete interaction history across all channels.

Assignment & Workload Management

Supervisors assign and reassign cases to specialists, manage canvassing lists, and distribute workload across teams. Real-time visibility into team performance with dashboards showing case status, completion rates, and outcomes tracking.

Configurable Surveys & Scripts

Easily configure surveys, questions, responses, and outreach scripts without technical expertise. Customize data entry forms with validation rules and required fields. Build virtual phone banks with randomized call distribution.

Security & Compliance

Role-based security with hierarchical user permissions provides different functionality for specialists, supervisors, managers, & data staff. HIPAA compliant architecture meets stringent government security requirements and standards.

Case Lifecycle Management

Track complete client journey from initial outreach through intake, follow-up tracking, appointment scheduling, case management, referrals to partner agencies, & case conclusion. Maintain comprehensive history with full audit trails.

ESRI Mapping Integration

Visualize records on interactive maps, select using custom polygons, and assign to canvassing lists. Address standardization with geocoding ensures data quality. Field staff access map data even when of/line for uninterrupted operations.

Appointment Scheduling

Coordinate appointments with external enrollers & service providers. Manage provider availability, handle cancellations and rescheduling. Automated email & text notifications keep clients informed throughout the process.

Data Integration & Analytics

Sync data to secure endpoints for analysis & reporting. Integration with analytics platforms like Tableau enables advanced visualization. Automated queries, imports, exports, & reports run at specified intervals for operational efficiency.

Dashboard & Reporting

Real-time dashboards provide visibility into operations for all user levels. Track key metrics, monitor team performance, analyze service delivery patterns. Integration with analytics platforms enables sophisticated data analysis and visualization.

About PRUTECH

PruTech Solutions has been supporting organizations with technology solutions for over 27 years. We have collaborated with public and private sector entities to help them achieve their goals through innovative technology. Our experience with government agencies and service delivery organizations positions us to deliver dependable solutions that meet stringent operational requirements while improving efficiency and service quality.
